c. Old Woman Springs quadrangle (part of).
d. Fawnskin quadrangle. (Additional data in the northwest part of Fawnskin quadrangle and northeast part of the Butler Peak quadrangle from: Smith, D.K., 1981, The geology northwest of Holcomb Valley, San Bernardino Mountains, San Bernardino County, California: unpublished map for the California Division of Mines and Geology Data Base Augmentation Program, scale 1:24,000.).
Also see: Cameron, C.S., 1981, Geology of the Sugarloaf and Delamar Mountain areas, San Bernardino Mountains, California: Massachusetts Institute of Technology, unpublished Ph.D. thesis, Plate I, scale 1:62,-500, Plates II and III, scale 1:15,840; and Richmond, J.F., 1960, Geology of the San Bernardino Mountains north of Big Bear Lake California: California Division of Mines Special Report 65, 68 p., Plate 1, scale 1:31,250.
e. Big Bear City quadrangle.
f. Rattlesnake Canyon quadrangle. (With modifications by Matti, J.C., Cox, B.F., Rodriguez, E.A., Obi, C.M., Powell, R.E., Hinkle, M.E., Griscom, A., Sabine, C., and Cwick, G.J., 1982, Mineral resources potential map of the Bighorn Mountains Wilderness Study Area, San Bernardino County, California: U.S. Geological Survey Miscellaneous Field Studies Map MF-1493 A, scale 1:48,000.)
g. Bighorn Canyon quadrangle. (With modifications by Matti, J.C., Cox, B.F., Rodriguez, E.A., Obi, C.M., Powell, R.E., Hinkle, M.E., Griscom, A., Sabine, C., and Cwick, G.J., 1982, Mineral resources potential map of the Bighorn Mountains Wilderness Study Area, San Bernardino County, California: U.S. Geological Survey Miscellaneous Field Studies Map MF-1493-A, scale 1:48,000.)
h. Onyx Peak quadrangle.
i. Rimrock quadrangle.

62. Troxel, B.W., and Gunderson, J.N., 1970, Geology of the Shadow Mountains and northern part of the Shadow Mountains SE 7 ½-minute quadrangles, western San Bernardino County, California: California Division of Mines and Geology Preliminary Report 12, scale 1:24,000.

63. Weber, F.H., Jr., 1964, Geology and mineral deposits of the Ord Mountain district, San Bernardino County, California: California Division of Mines and Geology Special Report 77, Plate 1, scale 1:24,000. (Modifications in eastern part from: Karish, C.R., reference no. 39.)

64. Weldon, R., and Meisling, K., 1981, Geology of the Silverwood Lake area, San Bernardino County, California: California Department of Water Resources, unpublished map, scale 1:24,000. (Also: Weldon, R.J., Meisling, K.E., Allen, C.R., and Sieh, K.E., 1981, Neotectonics of the Silverwood Lake area, San Bernardino County, California Department of Water Resources, unpublished report.)

65. Williamson, D.A., 1980, The geology of a portion of the eastern Cady Mountains, Mojave Desert, California: University of California, Riverside, unpublished M.S. thesis, scale 1:24,000.

66. Woodburne, M.O., and Golz, D.J., 1972, Stratigraphy of the Punchbowl Formation, Cajon Valley, southern California: University of California Publications in Geological Sciences, v. 92, Map 3, scale 1:24,000.
