DIVISION OF MINES AND GEOLOGY
JAMES F. DAVIS, STATE GEOLOGIST

STATE OF CALIFORNIA – PETE WILSON, GOVERNOR
THE RESOURCES AGENCY – DOUGLAS P. WHEELER, SECRETARY FOR RESOURCES
DEPARTMENT OF CONSERVATION – EDWARD G. HEIDIG, DIRECTOR

REGIONAL GEOLOGIC MAP SERIES
SAN FRANCISCO-SAN JOSE QUADRANGLE — MAP NO. 5A (GEOLOGY)
SHEET 3 of 5

1. Armstrong, C.F., and Wagner, D.L., 1976, Environmental geologic analysis of the Diablo Range study area, southern Santa Clara County, California: California Division of Mines and Geology Open-File Report 78-11 SF, plate 1, scale 1:12,000.
Wagner, D.L., 1978, Environmental geologic analysis of the Diablo Range study area II, southern Santa Clara County, California: California Division of Mines and Geology Open-File Report 78-12 SF, plate 1, by Wagner, D.L., Armstrong, C.F., and Saucedo, G.J., scale 1:12,000.
Nakata, J.K., 1980, Distribution and petrology of the Anderson-Coyote Reservoir volcanic rocks: U.S. Geological Survey Open-File Report 80-1256, scale 1:24,000.
2. Atwater, B.F., 1982, Geologic maps of the Sacramento — San Joaquin Delta, California: U.S. Geological Survey Miscellaneous Field Studies Maps MF-1401, map sheets 14-17, scale 1:24,000. Stockton fault from Morrison, R.R., Brown, R.R., Edmonson, W.F., Thomson, J.N., and Young, R.J., 1970, Potential of Sacramento Valley gas province, California: American Association of Petroleum Geologists Memoir 15, fig. 1, p. 330.
3. Bailey, E.H., and Everhart, D.L., 1964, Geology and quicksilver deposits of the New Almaden District, Santa Clara County, California: U.S. Geological Survey Professional Paper 360, plate 1, scale 1:24,000.
4. Bartow, J.A., Marchand, D.E., and Shipley, S., 1981, Preliminary geologic map of Cenozoic deposits of the Copperopolis quadrangle, California: U.S. Geological Survey Open-File Report 81-1048, scale 1:62,500.
Taliaferro, N.L., and Solari, A.J., 1948, Geologic map of the Copperopolis quadrangle, California: California Division of Mines Bulletin 145, plate 1, scale 1:62,500. Modifications by Wagner, D.L., 1984.
Clark, L.D., 1964, Stratigraphy and structure of part of the western Sierra Nevada metamorphic belt: U.S. Geological Survey Professional Paper 410, plate 1, scale 1:316,800.
5. Bartow, J.A., Lettis, W.R., Sonneman, H.S., and Switzer, J.R., 1985, Geologic map of the east flank of the Diablo Range from Hospital Creek to Poverty Flat, San Joaquin, Stanislaus, and Merced counties, California: U.S. Geological Survey Miscellaneous Geologic Investigations Map I-1656, scale 1:62,500.
6. Bishop, C.C., 1970, Upper Cretaceous stratigraphy on the west side of the northern San Joaquin Valley, Stanislaus and San Joaquin counties, California: California Division of Mines and Geology Special Report 104, plate 1, scale 1:62,500.
7. Bishop, C.C., Knox, R.D., Chapman, R.H., Rodgers, D.A., and Chase, G.B., 1973, Geological and geophysical investigations for Tri-Cities Seismic Safety and Environmental Resources Study: California Division of Mines and Geology Preliminary Report 19, plate 5, scale 1:24,000. Some modifications from Blake, M.C., Jr., and others (1974), reference 8.
Nilsen, T.H., 1973, Preliminary photo-interpretation map of landslide and other surficial deposits of the Concord 15-minute quadrangle, and the Oakland West, Richmond, and part of the San Quentin 7.5′ quadrangles, Contra Costa and Alameda counties, California: U.S. Geological Survey Miscellaneous Field Studies Map MF-493, scale 1:62,500. Moraga fault from: Wagner, J.R., 1978, Late Cenozoic history of the Coast Ranges east of San Francisco Bay: University of California, Berkeley, Ph.D. dissertation, scale 1:24,000.
Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Richmond quadrangle, Alameda and Contra Costa counties, California: U.S. Geological Survey Open-File Report 80-1100, scale 1:24,000.
8. Blake, M.C., Jr., Bartow, J.A., Frizzell, V.A., Jr., Schlocker, J., Sorg, D., Wentworth, C.M., and Wright, R.H., 1974, Preliminary geologic map of Marin and San Francisco counties and parts of Alameda, Contra Costa, and Sonoma counties, California: U.S. Geological Survey Miscellaneous Field Studies Map MF-574, scale 1:62,500.
9. Bogen, N.L., 1983, Studies of the Jurassic geology of the west-central Sierra Nevada of California: Columbia University, Ph.D. dissertation, map scale 1:24,000.
10. Bonilla, M.G., 1971, Preliminary geologic map of the San Francisco South quadrangle and part of the Hunters Point quadrangle, California: U.S. Geological Survey Miscellaneous Field Studies Map MF-311, scale 1:24,000. Northern extension of Sierra fault from Yancy, T.E., 1978, Stratigraphy of the Plio-Pleistocene strata in the Twelvemile Creek area, San Francisco Peninsula, California: Proceedings of the California Academy of Science, v. XLI, no. 15, p. 458, fig. 1.*
11. Bowen, O.E., 1969, Geology of the Coulterville 15′ quadrangle: California Division of Mines and Geology unpublished mapping, scale 1:62,500. Sonora fault from Schweickert, R.A., and Bogen, N.L., 1983, Tectonic transect of Sierran Paleozoic through Jurassic accreted belts: Pacific Section, Economic Paleontologists and Mineralogists Volume and Guidebook, 22 p. Fault in southwest part of area from unpublished maps by Paterson, S. R., and Tobisch, O.T., University of California, Santa Cruz, scale 1:62,500.
12. Brabb, E.E., 1970, Preliminary geologic map of the central Santa Cruz Mountains, California: U.S. Geological Survey Basic Data Contribution 6, scale 1:62,500.*
13. Brabb, E.E., Sonneman, H.S., and Switzer, J.R., 1971, Preliminary geologic map of the Mount Diablo — Byron area, Contra Costa, Alameda, and San Joaquin counties, California: U.S. Geological Survey Basic Data Contribution 28, scale 1:62,500. Ophiolitic rocks in Mt. Diablo area from Williams, K.M., 1983, The Mt. Diablo ophiolite, Contra Costa County, California: San Jose State University, M.S. thesis, scale 1:24,000. Antioch fault from Dibblee, T.W., 1980, Preliminary geologic map of the Antioch South quadrangle, Contra Costa County, California: U.S. Geological Survey Open-File Report, OFR 80-536, scale 1:24,000.
Also see: Colburn, I.P., 1961, Geology and tectonic history of Mt. Diablo, California: Stanford University, Ph.D. dissertation, scale 1:24,000.
14. Brabb, E.E., and Pampeyan, E.H., 1983, Geologic map of San Mateo County, California: U.S. Geological Survey Miscellaneous Investigations Series Map I-1257-A, scale 1:62,500. Faults on Montara Mountain quadrangle from Pampeyan, E.H., 1981, Geologic map of the Montara Mountain quadrangle, San Mateo County, California: U.S. Geological Survey Open-File Report 81-451, scale 1:24,000. Extension of the Ben Lomond fault from Stanley, R.G., and McCaffrey, R., 1983, Extent and offset history of the Ben Lomond fault, Santa Cruz County, California, *in* Andersen, D.W., and Rymer, M.J., editors, Tectonics and sedimentation along faults of the San Andreas System, Pacific Section, Society of Economic Paleontologists and Mineralogists, p. 79-90.*
15. Clark, J.C., 1981, Stratigraphy, paleontology, and geology of the central Santa Cruz Mountains, California Coast Ranges: U.S. Geological Survey Professional Paper 1168, scale 1:24,000.*
16. Cotton, W.R., 1972, Preliminary geologic map of the Franciscan rocks in the central part of the Diablo Range, California: U.S. Geological Survey Miscellaneous Field Studies Map MF-343, scale 1:62,500. Greenville fault from Hart, E.W., 1981, Recently active strands of the Greenville fault, Alameda, Contra Costa, and Santa Clara counties, California: California Division of Mines and Geology Open-File Report 81-8 SF, scale 1:24,000. Las Positas fault from Dibblee, T.W., 1980, Preliminary geologic map of the Altamont quadrangle, California: U.S. Geological Survey Open-File Report 80-538, scale 1:24,000.
17. Cowan, D.S., 1972, Petrology and structure of Franciscan assemblage rocks northwest of Pacheco Pass, California: Stanford University, Ph.D. dissertation, scale 1:24,000.
Morrell, R.P., 1978, Geology and mineral paragenesis of Franciscan metagraywacke near Paradise Flat, northwest of Pacheco Pass, California: Stanford University, M.S. thesis, scale 1:24,000.
18. Dibblee, T.W., Jr., 1972, Preliminary geologic maps of the Calaveras Reservoir, Lick Observatory, Milpitas, and San Jose East quadrangles, Alameda and Santa Clara counties, California: U.S. Geological Survey Open-File Map, scale 1:24,000. Concealed faults buried beneath San Jose from Robbins, S.L., 1971, Gravity and magnetic data in the vicinity of the Calaveras, Hayward, and Silver Creek faults near San Jose, California: U.S. Geological Survey Professional Paper 750-B, p. B128-B139.*
19. Dibblee, T.W., Jr., 1973, Preliminary geologic maps of the Gilroy, Gilroy Hot Springs, Mt. Sizer, Morgan Hill, and Mt. Madonna quadrangles, Santa Clara County, California: U.S. Geological Survey Open-File Maps, scale 1:24,000.*
20. Dibblee, T.W., Jr., 1975, Geologic map of the Pacheco Pass 15′ quadrangle, California: U.S. Geological Survey Open-File Report 75-394, scale 1:62,500. O'Neill fault from Herd, D.G., 1979, Geologic map of O'Neill Forebay, western Merced County, California: U.S. Geological Survey Open-File Report 79-359, scale 1:24,000. Faults in San Luis Reservoir area from Anderson, L.W., Laforge, R., Anders, M.H., 1982, Seismotectonic study of the San Luis Area, eastern Diablo Range, California: U.S. Bureau of Reclamation Seismotectonic Report 82-2, scale 1:62,500.
21. Dibblee, T.W., Jr., and Brabb, E.E., 1978, Preliminary geologic map of the Los Gatos quadrangle, Santa Clara and Santa Cruz counties, California: U.S. Geological Survey Open-File Report 78-453, scale 1:24,000. Rocks shown as Coast Range ophiolite remnants from McLaughlin, R.J., personal communication, 1985.*
22. Dibblee, T.W., Jr., Brabb, E.E., and Clark, J.C., 1978, Preliminary geologic map of the Laurel quadrangle, Santa Cruz and Santa Clara counties, California: U.S. Geological Survey Open-File Report 78-84, scale 1:24,000.*
23. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Niles quadrangle, Alameda County, California: U.S. Geological Survey Open-File Report 80-533C, scale 1:24,000.*
24. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Walnut Creek quadrangle, Contra Costa County, California: U.S. Geological Survey Open-File Report 80-351, scale 1:24,000. Geology of the Pacheco syncline from Lutz, G. C., 1951, The Sobrante Sandstone: University of California Department of Geological Sciences Bulletin, v. 28, p. 367-406, fig. 3, scale approximately 1:42,000.
Wagner, J.R., 1978, Late Cenozoic history of the Coast Ranges east of San Francisco Bay: University of California, Berkeley, Ph.D. dissertation, scale 1:24,000.
25. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Briones Valley quadrangle, Alameda and Contra Costa counties, California: U.S. Geological Survey Open-File Report 80-539, scale 1:24,000.
Wagner, J.R., 1978, Late Cenozoic history of the Coast Ranges east of San Francisco Bay: University of California, Berkeley, Ph.D. dissertation, scale 1:24,000.
26. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Midway quadrangle, Alameda and San Joaquin counties, California: U.S. Geological Survey Open-File Report 80-535, scale 1:24,000.
27. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Altamont quadrangle, Alameda County, California: U.S. Geological Survey Open-File Report, 80-538, scale 1:24,000.
28. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the La Costa Valley quadrangle, Alameda County, California: U.S. Geological Survey Open-File Report, 80-533A, scale 1:24,000.
29. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Livermore quadrangle, Alameda County, California: U.S. Geological Survey Open-File Report 80-553 B, scale 1:24,000.
30. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Dublin quadrangle, Alameda County, California: U.S. Geological Survey Open-File Report, 80-537, scale 1:24,000.
Hart, E.W., 1981, Evidence for recent faulting, Calaveras and Pleasanton faults, Diablo and Dublin quadrangles, California: California Division of Mines and Geology Open-File Report 81-9 SF, scale 1:24,000.
31. Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Hayward quadrangle, Alameda County, California: U.S. Geological Survey Open-File Report, 80-540, scale 1:24,000.
Wagner, J.R., 1978, Late Cenozoic history of the Coast Ranges east of San Francisco Bay: University of California, Berkeley, Ph.D. dissertation, scale 1:24,000. Additions in NE Newark quadrangle from Bortugno, E.J., unpublished.
32. Dibblee, T.W., Jr., and Brabb, E.E., 1980, Preliminary geologic map of the Loma Prieta quadrangle, Santa Cruz and Santa Clara counties, California: U.S. Geological Survey Open-File Report 80-944, scale 1:24,000.*
33. Dibblee, T.W., Jr., 1981, Preliminary geologic map of the Mendenhall Springs quadrangle, Alameda County, California: U.S. Geological Survey Open-File Report 81-235, scale 1:24,000.
34. Ehrreich, A.L., 1964, Metamorphism, migmatization, and intrusion in the foothills of the Sierra Nevada, Madera, Mariposa, and Merced counties, California: University of California, Los Angeles, Ph.D. dissertation, scale 1:24,000.*
35. Eric, J.H., Stromquist, A.A., and Swinney, C.M., 1955, Geology and mineral deposits of the Angels Camp and Sonora quadrangles, Calaveras and Tuolumne counties, California: California Division of Mines Special Report 41, plate 2, scale 1:24,000. Minor modifications showing areas interpreted to be melange by Wagner, D.L., 1984. Sonora fault from Schweickert, R.A., and Bogen, N.L., 1983, Tectonic transect of Sierran Paleozoic through Jurassic accreted belts: Pacific Section, Economic Paleontologists and Mineralogists Volume and Guidebook, 22 p.
36. Galloway, A.J., 1977, Geology of the Point Reyes Peninsula, Marin County, California: California Division of Mines and Geology Bulletin 202, plate 1, scale 1:48,000. Stratigraphic modifications from Clark, J.C., Brabb, E.E., Greene, H.G., and Ross, D.C., 1984, Geology of the Point Reyes Peninsula and implications for San Gregorio fault history, *in* Crouch, J.K., and Bachman, S.B., editors, Tectonics and sedimentation along the California margin: Pacific Section, Society of Economic Paleontologists and Mineralogists, v. 38 p. 67-86, fig. 1.
37. Hall, F.R., 1960, Geology and groundwater of a portion of eastern Stanislaus County, San Joaquin Valley, California: Stanford University, Ph.D. dissertation, scale 1:62,500.
38. Hart, E.W., 1959, Geology of limestone and dolomite deposits in the southern half of Standard quadrangle, Tuolumne County, California: California Division of Mines Special Report 58, plate 1, scale 1:24,000. Sonora fault from Schweickert, R.A., and Bogen, N.L., 1983, Tectonic transect of Sierran Paleozoic through Jurassic accreted belts: Pacific Section, Economic Paleontologists and Mineralogists Volume and Guidebook, 22 p.
39. Helley, E.J., Lajoie, K.R., Spangle, W.E., and Blair, M.L., 1979, Flatland deposits of the San Francisco Bay region, California: their geology and engineering properties and their importance to comprehensive planning: U.S. Geological Survey Professional Paper 943, scale 1:125,000. Concealed faults buried beneath San Jose from Robbins, S.L., 1971, Gravity and magnetic data in the vicinity of the Calaveras, Hayward, and Silver Creek faults near San Jose, California: U.S. Geological Survey Professional Paper 750-B, p. B128-B139.*
40. Lettis, W.R., 1982, Late Cenozoic stratigraphy and structure of the western margin of the central San Joaquin Valley, California: U.S. Geological Survey Open-File Report 82-526, 203 p., plates 13-26, scale 1:24,000.
41. Maddock, M.E., 1964, Geology of the Mt. Boardman quadrangle, Santa Clara and Stanislaus counties, California: California Division of Mines and Geology Map Sheet 3, scale 1:62,500. Additional faults and details within Franciscan Complex from Raymond, L.A., unpublished written communication.
Evarts, R.C., 1978, The Del Puerto ophiolite complex, California, a structural and petrologic investigation: Stanford University, Ph.D. dissertation, scale 1:12,000.
42. Mannion, L.E., 1960, Geology of the La Grange quadrangle, California: Stanford University, Ph.D. dissertation, plate 1, scale 1:24,000. Minor modifications by Bortugno, E.J., 1984.
43. Marchand, D.E., and Wagner, H., 1980, Preliminary geologic map showing Late Cenozoic deposits of the Turlock Lake quadrangle, Merced and Stanislaus counties: U.S. Geological Survey Open-File Report 80-913, scale 1:24,000.
44. Marchand, D.E., 1980, Preliminary geologic maps showing Quaternary deposits of the Ceres, Denair, and Montpelier 7.5′ quadrangles, California: U.S. Geological Survey Open-File Report 80-607, scale 1:24,000.
45. Marchand, D.E., and Allwardt, A., 1981, Late Cenozoic stratigraphic units northeastern San Joaquin Valley, California: U.S. Geological Survey Bulletin 1470, 70 p., plate 1, scale 1:125,000.
Also see: Helley, E.J., 1978, Alluvial fan of the Chowchilla River and adjacent foothill area, Mariposa, Merced, and Madera counties, California: U.S. Geological Society Miscellaneous Field Studies Map MF-927, scale 1:62,500.
46. Marchand, D.E., Bartow, J.A., and Shipley, S., 1981, Preliminary geologic maps showing Cenozoic deposits of the Farmington and Bachelor Valley quadrangles, San Joaquin, Stanislaus, and Calaveras counties, California: U.S. Geological Survey Open-File Report 81-1050, scale 1:24,000.
47. Marchand, D.E., Bartow, J.A., and Shipley, S., 1981, Preliminary geologic maps showing Cenozoic deposits of the Cooperstown and La Grange quadrangles, California: U.S. Geological Survey Open-File Report 81-1049, scale 1:24,000.
48. Marchand, D.E., 1981, Preliminary geologic maps showing Cenozoic deposits of the Snelling and Merced Falls quadrangles, California: U.S. Geological Survey Open-File Report 81-107, scale 1:24,000.
49. McCulloch, D.S., 1987, Regional geology and hydrocarbon potential of offshore central California, *in* Scholl, D.W., Grantz, A., and Vedder, J.G., editors, Geology and resource potential of the continental margin of western North America and adjacent ocean basins — Beaufort Sea to Baja California: Circum-Pacific Council for Energy and Mineral Resources, Houston, Texas, Science Series, v. 6, p. 353-401.
McCulloch, D.S., and Greene, H.G., 1989, Geologic map of the central California continental margin, *in* Green, H.G., and Kennedy, M.P., editors, California Continental Margin Geologic Map Series, Central California Continental Margin: California Division of Mines and Geology, Map 5A, scale 1:250,000.
Also see: Hanna, G.D., 1951, Geology of the Farallon Islands, *in* Geologic guidebook of the San Francisco Bay counties: California Division of Mines Bulletin 154, p. 301-310.
50. McJunkin, R.D., 1984, Geology of the Big Basin Redwoods State Park, Santa Cruz County, California: California Division of Mines and Geology Open-File Report 84-6 SAC, 72 p., scale 1:24,000.*
51. McLaughlin, R.J., Simoni, T.R., Osbun, E.D., and Bauer, P.G., 1971, Preliminary geologic map of the Loma Prieta-Mount Madonna area, Santa Clara and Santa Cruz counties, California: U.S. Geological Survey Open-File Map, scale 1:24,000. Rocks shown as Coast Range ophiolite remnants from McLaughlin, R.J., personal communication, 1985.*
52. Merguerian, C., 1981, The extension of the Calaveras-Shoo Fly thrust to the southern end of the Sierra Nevada metamorphic belt, California: unpublished maps and report for the California Division of Mines and Geology Data Base Augmentation Program, scale 1:24,000. Sonora fault from Schweickert, R.A., and Bogen, N.L., 1983, Tectonic transect of Sierran, Paleozoic through Jurassic accreted belts: Pacific Section Economic Paleontologists and Mineralogists Volume and Guidebook, 22 p.
Also see: Merguerian, C., 1985, Stratigraphy, structural geology, and tectonic implications of the Calveras-Shoo Fly Complex and The Calaveras-Shoo Fly thrust, central Sierra Nevada, California: Columbia University, Ph.D. dissertation, 255 p.
53. Morgan, B.A., 1976, Geologic map of the Chinese Camp and Moccasin quadrangles, Tuolumne County, California: U.S. Geological Survey Miscellaneous Field Studies Map MF-840, scale 1:24,000. Sonora fault from Schweickert, R.A., and Bogen, N.L., 1983, Tectonic transect of Sierran Paleozoic through Jurassic accreted belts: Pacific Section, Economic Paleontologists and Mineralogists Volume and Guidebook, 22 p.
54. Radbruch, D.H., 1969, Areal and engineering geology of the Oakland East quadrangle, California: U.S. Geological Survey Geologic Quadrangle Map GQ-769, scale 1:24,000. Additions from Lindquist, T.A., 1984, unpublished map, University of California, Berkeley, scale, 1:7,200. Additions in NE San Leandro quadrangle from Bortugno, E.J.
Radbruch, D.H., 1957, Areal and engineering geology of the Oakland West quadrangle, California: U.S. Geological Survey Miscellaneous Geologic Investigations Map I-239, scale 1:24,000.
55. Raymond, L.A., 1969, Stratigraphy and structural geology of the northern Lone Tree Creek and southern Tracy quadrangles, California: San Jose State University, M.S. thesis, scale 1:24,000.
Raymond, L.A., 1973, Franciscan geology of the Mt. Oso area, California: University of California, Davis, Ph.D. dissertation, scale 1:24,000.
Raymond, L.A., 1973, Tesla-Ortigalita fault, Coast Range thrust fault, and Franciscan metamorphism, northeastern Diablo Range, California: Geological Society of America Bulletin, v. 84, p. 3547-3562, various scales.
Raymond, L.A., and Maddock, M.E., unpublished mapping of the Solyo and Lone Tree Creek quadrangles, scale 1:24,000.
Additional faults and stratigraphic nomenclature from Raymond, L.A., unpublished map and written communication.
56. Rice, S.J., Strand, R.G., and Smith, T.C., 1976, Geology for planning, central and southeastern Marin County, California: California Division of Mines and Geology Open-File Report 76-2 SF:
Plate 1A, Geology of the San Geronimo Valley area, Marin County, California; by Smith, T.C., scale 1:12,000.
Plate 1B, Geology of the upper Ross Valley and the western part of the San Rafael area, Marin County, California; by Smith, T.C., Rice, S.J., and Strand, R.G., scale 1:12,000.
Plate 1C, Geology of the eastern part of the San Rafael area, Marin County, California; by Rice, S.J., Strand, R.G., and Smith, T.C., scale 1:12,000.
Plate 1D, Geology of the lower Ross Valley, Corte Madera, Homestead Valley, Tamalpais Valley, Tennessee Valley and adjacent areas, Marin County, California; compiled by Rice, S.J., and Smith, T.C., scale 1:12,000.
Plate 1E, Geology of the Tiburon peninsula, Sausalito, and adjacent areas, Marin County, California; compiled by Rice, S.J., and Smith, T.C., scale 1:12,000.
57. Saul, R.B., 1973, Geology and slope stability of the southwest quarter of the Walnut Creek quadrangle, Contra Costa County, California: California Division of Mines and Geology Map Sheet 16, scale 1:12,000. Minor modifications from Graham, S.A., McCloy, C., Hitzman, M., Ward, R., and Turner, R., 1984, Basin evolution during change from convergent to transform continental margin in central California: American Association of Petroleum Geologists Bulletin, v. 68, no. 3, p. 237, fig. 4.
58. Schlocker, J., 1974, Geology of the San Francisco North quadrangle, California: U.S. Geological Survey Professional Paper 782, scale 1:24,000. Also see Armstrong, C.F., and Gallagher, K., 1977, Fossils from the Franciscan assemblage Alcatraz Island: California Geology, v. 30, no. 6, p. 134-135.
59. Snetsinger, K.G., 1976, Rock types of the Franciscan Formation, Coyote Hills: California Geology, v. 29, no. 8, p. 174-177, scale 1:29,750.
60. Sorg, D.H., and McLaughlin, R.J., 1975, Geologic map of the Sargent-Berrocal fault zone between Los Gatos and Los Altos Hills, Santa Clara County, California: U.S. Geological Survey Miscellaneous Field Studies Map MF-643, scale 1:24,000.
61. Taliaferro, N.L., Frederick, F., Cox, M.W., and Lorenz, J., 1930, Geologic map of the Indian Gulch quadrangle, California: unpublished mapping of U.C. Berkeley field classes, scale 1:62,500. Sonora fault from Schweickert, R.A., and Bogen, N.L., 1983, Tectonic transect of Sierran Paleozoic through Jurassic accreted belts: Pacific Section, Economic Paleontologists and Mineralogists Volume and Guidebook, 22 p. Fault in southwest part of area from unpublished maps by Paterson, S.R., and Tobisch, O.T., University of California, Santa Cruz, scale 1:62,500.
Best, M.G., 1961, Metamorphic and igneous rocks in the Cathay area, western Mariposa County, California: University of California, Berkeley, Ph.D. dissertation, scale 1:48,000.
Bortugno, E.J., 1983, Geologic reconnaissance of the Indian Gulch 15′ quadrangle, California: unpublished field study for the Regional Geological Mapping Program of the Division of Mines and Geology, scale 1:62,500.
62. Turner, H.W., and Ransome, F.L., 1897, Geologic Atlas of the United States, Sonora Folio, California: U.S. Geological Survey Folio 41, scale 1:125,000. Modifications in stratigraphy by Bortugno, E.J., 1984. Sonora fault from Schweickert, R.A., and Bogen, N.L., 1983, Tectonic transect of Sierran Paleozoic through Jurassic accreted belts: Pacific Section, Economic Paleontologists and Mineralogists Volume and Guidebook, 22 p.
63. U.S. Department of Agriculture and University of California Agricultural Experiment Station Soil Survey: Stockton area-1951 and Tracy area-1943, scale 1:31,680. Modifications from Bortugno, E.J., 1984. Stockton fault from Morrison, R.R., 1970, Potential of Sacramento Valley gas province, California: American Association of Petroleum Geologists Memoir 15, fig. 1, p. 330.
64. Wagner, J.R., 1978, Late Cenozoic history of the Coast Ranges east of San Francisco Bay: University of California, Berkeley, Ph.D. dissertation, scale 1:24,000.
Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Las Trampas Ridge quadrangle, Alameda and Contra Costa counties, California: U.S. Geological Survey Open-File Report 80-545, scale 1:24,000.
65. Wagner, D.L., 1977, Geology for planning in western Marin County, California: California Division of Mines and Geology Open-File Report 77-15 SF, plate 1, scale 1:12,000. Stratigraphic modifications from Clark, J.C., Brabb, E.E., Greene, H.G., and Ross, D.C., 1984, Geology of the Point Reyes Peninsula and implications for San Gregorio fault history, *in* Crouch, J.K., and Bachman, S.B., editors, Tectonics and sedimentation along the California margin: Pacific Section, Society of Economic Paleontologists and Mineralogists, v. 38, p. 67-86, fig. 1.
66. Woodward-Clyde Consultants, 1978, Stanislaus nuclear project site suitability and site safety report prepared for Pacific Gas and Electric Company, v. 6, Appendix C.4, fig. C. 4-4. Minor modifications by Wagner, D.L., 1984.
* Some fault traces were modified or taken from Pampeyan, E.H., 1979, Preliminary map showing recency of faulting in coastal north-central California: U.S. Geological Survey Miscellaneous Field Studies Map MF-1070, scale 1:250,000 and/or Weber, G.E., and Lajoie, K.R., 1980, Map of Quaternary faulting along the San Gregorio fault zone, San Mateo and Santa Cruz counties, California: U.S. Geological Survey Open-File Report 80-907, map scale 1:24,000.

INDEX TO GEOLOGIC MAPS USED IN COMPILATION OF THE SAN FRANCISCO-SAN JOSE QUADRANGLE, CALIFORNIA, 1:250,000
