**PUBLICATION RELEASE**

April 12, 2011

**SPECIAL PUBLICATION/REPORT 219**

**PROCEEDINGS OF THE THIRD CONFERENCE ON EARTHQUAKE HAZARDS IN THE  
EASTERN SAN FRANCISCO BAY AREA**

**SCIENCE, HAZARD, ENGINEERING RISK**

Edited by Keith Knudsen, Chief Editor, 2008

The Third Conference on Earthquake Hazards in the Eastern San Francisco Bay Area held in 2008 at California State University, East Bay followed successful similar conferences held there in 1982 and 1992. The purpose of the Third Conference was to synthesize and make public information on the earthquake science, hazard engineering, and risk in the Eastern San Francisco Bay Area that has been developed since the 1992 conference. The Third Conference activities and publications took advantage of interest in earthquake hazards and risk generated by the 140th anniversary of the 1868 Hayward fault earthquake (October 21). Over 300 scientists, engineers and planners participated in the conference.
