

California Statewide Watershed Program Calendar

This calendar provides information on meetings for the California Statewide Watershed Program and the State Watershed Advisory Committee, as well as other watershed-related conferences, meetings, and courses happening around the state and elsewhere in the nation.

We apologize but due to staff reductions the Watershed Calendar is not currently being updated. Please check back from time to time as we may initiate this project in the future.

If you have questions or comments, please contact us at: watershed@conservation.ca.gov
