

Department of Conservation Minimum Qualifications

Engineering Geologist

Education: Equivalent to graduation from college with major work in geology, engineering geology, or a closely related field that includes coursework in geology. (Additional qualifying experience may be substituted for the required education on a year-for-year basis.) (Registration as a senior in a recognized institution will admit applicants to the Engineering Geologist examination, but they must produce evidence of graduation or its equivalent before they can be considered eligible for appointment.)

Associate Oil and Gas Engineer

Experience: Four years of progressively responsible experience as a professional engineer or geologist in oil, gas, or geothermal resource drilling or production operations, or in the technical inspection of such operations, exploration, or development work. (A graduate degree in petroleum engineering, geology, or a closely related field of engineering may be substituted for two years of required nonspecialized experience.) and

Education: Equivalent to graduation from college with major work in petroleum engineering, geology, or a closely related field. (Registration as a senior in a recognized college will admit applicants to the examination, but they must produce evidence of graduation before they can be appointed.)
