# SMARA Annual Inspection Workshop

## Topics will include:

- Conducting Annual SMARA inspections
- Observing and Measuring Site Conditions:
  - ~ Inspecting for Topsoil Management and Environmental Compliance
  - ~ Inspecting for Revegetation and Measuring Performance Standards
  - ~ Inspecting for Erosion Control
  - ~ Inspecting for Geotechnical Requirements and Slope Stability Issues
  - ~ Inspecting for Hydrology, Water Quality, and In-stream Mining
- Completing the Inspection Report
- Updating the Financial Assurances
- Following up with the Corrective Actions and Enforcement

This workshop is designed to train *lead agency staff* and *consultants* who conduct annual inspections of surface mining operations.

The first day will be held in the classroom and the second day will be a half day of field exercises at a near-by mine site.
