

California Department of Conservation

FARMLAND MAPPING AND MONITORING PROGRAM

SOIL CANDIDATE LISTING

FOR

PRIME FARMLAND AND FARMLAND OF STATEWIDE IMPORTANCE

MARIN COUNTY

U.S. Department of Agriculture, Natural Resources Conservation Service,

soil surveys for Marin County include:

Soil Survey of Marin County, California, March 1985

Beginning in 2000, SSURGO digital soil information has been incorporated into the Marin County Important Farmland Map. Prior versions of the map have not been modified.

The SSURGO data includes Marin County (published 09/17/2018). The digital surveys contain additional soil units beyond those published in the original paper surveys. Soils on the Prime Farmland and Farmland of Statewide Importance lists that only occur in the SSURGO data are appended in italics at the end of each list.

For more information on the NRCS SSURGO data, please visit the NRCS Soil Geography webpage: <http://www.nrcs.usda.gov/wps/portal/nrcs/main/soils/survey/geo/>
