

NOTICE OF PROPOSED AQUIFER EXEMPTION

Notice Published February 28, 2022

NOTICE IS HEREBY GIVEN that the California Department of Conservation, Geologic Energy Management Division (CalGEM), in consultation with the State Water Resources Control Board (State Water Board) and the Los Angeles Regional Water Quality Control Board, is considering recommending that the United States Environmental Protection Agency (US EPA) approve an aquifer exemption for the following Proposal Area:

Field: Holser Oil Field
County: Ventura County, California
Class and Well Type: Class II, Water Disposal
Geologic Formations: Holser – Nuevo Zone of the Modelo Formation
Federal Exemption Criteria: 40 CFR §§ 146.4(a) and 146.4(b)(1)

If approved by the US EPA, this aquifer exemption proposal would clarify that the Proposal Area may be a suitable location for Class II injection to occur. However, approval of the proposed aquifer exemption would not, by itself, authorize any new injection activity. Approval to operate a Class II injection project involves a regulatory process separate from aquifer exemption.

CalGEM and the State Water Board invite comments from the public regarding whether this aquifer exemption proposal meets the criteria for recommendation to the US EPA.

RESPONSE TO COMMENTS

Following the written comment period and public hearing, CalGEM and State Water Board staff will review all timely and relevant comments received (including oral comments received at the hearing). CalGEM and State Water Board staff will then consider whether to make any changes to the aquifer exemption proposal. If CalGEM and State Water Board staff make any substantial changes to the scope of the proposed aquifer exemption, they will provide notice of a 15-day supplemental period to receive public comments on those changes.

After reviewing the comments received, CalGEM and State Water Board staff will decide whether to submit the proposed aquifer exemption to the US EPA for its review and possible approval. If CalGEM and State Water Board elect to submit the proposed aquifer exemption to the US EPA, CalGEM will produce, in cooperation with State Water Board staff, a document that summarizes the substantive comments received and the disposition of those comments and will include that document among the materials sent to the US EPA, along with a copy of all comments received.

ADDITIONAL INFORMATION

Important information regarding the legal criteria and factual observations pertinent to this aquifer exemption proposal is summarized in a Statement of Basis document.
