Release 3.0 Computer Based Training (CBT) Announcement

WellSTAR Release 3.0 will go live on October 29th, 2018 to internal users. The release will follow the same Crawl, Walk, Run approach as Release 1.0 and 2.0. Operators in the crawl phase will begin utilizing new R3.0 functionality listed below November 2018. Walk and Run Operators will be notified when security access to R3.0 functionality has been granted.

All operators are asked to take the Computer Based Training to help them navigate through the new capabilities in Release 3.0.

The additional capabilities that will be introduced in Release 3.0 are:

Release 3.0 New Capability Area		
New	**Description**	**CBT Course**
Incidents	The Incident capability in WellSTAR provides access to incident data pertaining to wells, facilities, or field locations.	WellSTAR Overview, WellSTAR General Navigation, Well Management, Facilities Management and Incidents
Complaints	WellSTAR enables the public to post and track complaints online.	WellSTAR Overview and WellSTAR General Navigation and Complaints
Compliance	WellSTAR's Compliance capability tracks all compliance-related activities.	WellSTAR Overview, WellSTAR General Navigation, and Compliance
Construction Site Well Review	The Construction Site Well Review (CSWR) capability in WellSTAR enables users to review and record information related to the CSWR process.	WellSTAR Overview, WellSTAR General Navigation and Construction Site Well Review

Although you have been working in WellSTAR, it is highly recommended that you take the CBT courses prior to accessing Release 3.0 functionalities. The CBT and other updated training materials for Release 3.0 are now available and can be found here on

the WellSTAR webpage. The CBTs are designed to help operators learn how to use the new capabilities in the system. Other training materials, such as quick reference guides and user guides, are also available and provide the basic steps to get you started in an easy step-by-step process.
