

### **Monthly Production Update**

The WellSTAR development team has worked hard at increasing performance of the Production reporting Electronic Data Delivery (EDD) process. This work has increased the maximum number of records (rows) that can be submitted on a single form. Currently, operators may submit up to 7,000 records (rows) on a single monthly EDD. This number should improve to allow all wells to be reported on a single EDD form in Release 3.0.

In the interim, please separate the monthly EDD into files not to exceed 7,000 records. This can be done by simply cutting and pasting the data onto another EDD for that same month, then you can delete the rows (wells) that you will report on another form to avoid duplication in the reporting. If you have any questions, please contact [DOGGR-PROD@Conservation.ca.gov](mailto:DOGGR-PROD@Conservation.ca.gov).

### **Extension of SB1281 Quarterly Water Reporting Deadline**

This notification is in follow up to the Notice to Operators (NTO) that went out in March 2018, titled NTO 2018-03, which communicated WellSTAR updates and new electronic reporting due dates for the Monthly 110 Reports and Quarterly SB1281 Reports. The Division has successfully implemented the new features of electronic reporting for Monthly Production/Injection reports and can now accept and process monthly reports in WellSTAR. The other features for the quarterly report will be rolled out in the Release 3.0. The revised interim due date for submission of the Quarterly SB 1281 Water Reports is scheduled for after Release 3.0 which will go-live the first week of November, 2018.

The Division will provide detailed information on the submission of the quarterly water reports in a future bulletin. Please contact the WellSTAR team if you have any questions at [wellstar@conservation.ca.gov](mailto:wellstar@conservation.ca.gov).

The Division will continue to engage with operators as we go through this transition period and will frequently communicate the changes. The operators are encouraged to check the [WellSTAR page](#) for updates.

This WellSTAR Bulletin will be used frequently to communicate important WellSTAR updates. Please share this bulletin with impacted users in your organization. They can also subscribe to this bulletin by selecting this [link](#).
