NOTICE TO OPERATORS

Effective January 1, 2006, the cost to purchase Division of Oil, Gas, and Geothermal Resources blue-line oil field maps will increase to \$5 each. The current price is \$3 each, and has remained at that level for over 30 years. Recently, the cost to reproduce the blue-line maps increased substantially, with many blueprinting companies no longer offering this service.

Digital copies of many Division maps are available on our website (www.conservation.ca.gov/DOG/maps/index_map.htm). The blue-line maps will continue to be available while the Division converts to a computerized GIS mapping system.

Hal Bopp
State Oil and Gas Supervisor
