

## Release Notes – R5.1.1 04/25/2020

The purpose of release notes is to address any known defects and associated workarounds for release 5.1.1 implementation on 04/25/2020.

This document will provide descriptions of each capability and the functionality being implemented within each capability.

### WellSTAR Alternate Procedures

The following are known defects being implemented and the associated alternate procedures for WellSTAR Release 5.1.1. These defects are being prioritized by the primary CalGEM stakeholders and fixes will be implemented based on the priority set by the business.

#### [R5.1.1\\_WellSTAR\\_Alternate\\_Procedures](#)

### Release 5.1.1 enhancements and new forms being implemented are:

- Well Management & UIC Project Updates

### Well Management & UIC Project Updates

Updates to the UIC Application for Injection for to incorporate updated UIC regulations and will enhance the user experience. This update includes an internal Electronic Data Deliverable (EDD) spreadsheet for upload to WellSTAR to allow CalGEM users to complete the well review process for both project injection well and AOR well reviews. The changes to the form will greatly enhance the functionality and user interface of the form. Due to the complexity of changes, the current R5.1.0 version and all previous versions of the form will not be usable after the R5.1.1 release. All existing versions of the UIC Application for Injection form will not be able to be submitted or approved after the R5.1.1 release and therefore will be withdrawn from WellSTAR at Go-Live.

Specific functionality addressed in this area:

- Well Management
- UIC Application for Injection
- UIC Projects
