Release 5.1.5 enhancements and new forms being implemented are:

- Additional Security Form
- Operator Total Liability

Additional Security Form:

- Introduction of a new online form that is initiated by Internal Users to capture information related to additional security needed from Operators based on the cost to plug and abandon their assets. Organization Detail updates to display Additional Security information for the operator.

Operator Total Liability:

- Introduction of a new Online Form to capture the Operator's Total Liability that allows for CalGEM to document their findings/review of the financial information provided by the Operators. Updates to the Compliance Information online form to capture a new compliance/violation for Operators that have not submitted their Operator Total Liability information. Updates to Bond Information Online form to capture additional related information. Facility Information online form updates to capture additional information for Facilities against non-active Operators and an indicator for Hazardous Facilities.
