

# Landslides of the Highway 60 corridor in the San Timoteo badlands, Riverside County, California

## Plate 2

### Explanation

by

M. W. Manson, C. W. Davenport, K. D. Brown,  
C. J. Wills and C. J. Domrose  
California Geological Survey

Type of landslide shown by pattern  
and activity shown by color.

	Historic	Young	Mature	Old
Debris Flow				
Debris Slide				
Rock Slide				

Debris flows mapped by Morton shown as lines

- 1969 debris flows
- 1998 debris flows

Historic debris flows mapped for this study shown as polygons. These are from 1969 aerial photos, so probably represent debris flows triggered by the 1969 storms.

Confidence of Interpretation shown by outline

Definite	Probable	Questionable
