Preliminary Geological Map of the Jenny Lind 7.5' Quadrangle, California

Version 1.0

By Matt D. O’Neal, Peter J. Holland, and Marc P. Delatte

Digital preparation by Matt D. O’Neal and Camila J. Ostane

2019

California Geological Survey

State of California – Gavin Newsom, Governor

The California Natural Resources Agency – Four Christoffel Secondary
Department of Conservation - G. Jay Birnbaum, Director

PRELIMINARY GEOLOGIC MAP OF THE JENNY LIND 7.5' QUADRANGLE, CALIFORNIA

DESCRIPTION OF MAP UNITS

MESOZOIC AND PALEOZOIC UNITS

- Salt Spring Slate (Late Jurassic)
- Ione Formation (middle Eocene)
- Chico Formation (Cretaceous)
- Laguna Formation (late Pliocene)
- Artificial fill (historic)
- Alluvium (Holocene to Pleistocene)
- Conglomerate

Landslide – Arrows indicate principal direction of movement

Thrust fault – Short dash where inferred; dotted where concealed; queried where

FEATURES

- Watershed boundaries
- Roads (interstate, state, county)
- Highways (state, county)
- Municipal boundaries
- School districts
- Water bodies
- Railroads
- Geologic map units

SCALE

1:24,000

DIGITAL PREPARATION

M. Delattre - PG No. 5230, CEG No. 1819
P. Holland - PG No. 7994, CEG No. 2400
