DESCRIPTION OF MAP UNITS

BEDROCK UNITS

Metavolcanic and metasedimentary rocks undivided (Cretaceous and Jurassic) - Mostly medium to fine grained, dark gray, massive, and non-consolidated. Includes: metavolcanic rocks, metasedimentary rocks, and gabbro.

Gabbro (Cretaceous and Jurassic) - Mostly gabbro; fine- to medium-grained, dark gray, massive, and non-consolidated. Includes: gabbro.

Granodiorite of Rainbow (Cretaceous) - Leucocratic hornblende-biotite gneiss; coarse-grained, dark gray, massive, and non-consolidated. Includes: granodiorite, gneiss.

Tonalite undivided (Cretaceous) - Mostly hornblende-biotite tonalite; coarse to medium-grained, dark gray, massive, and non-consolidated. Includes: tonalite, gneiss.

Granodiorite (Cretaceous and Jurassic) - Mostly gneiss; dark gray, fine- to medium-grained, and non-consolidated. Includes: granodiorite, gneiss.

Metagranitic rocks (Cretaceous and Jurassic) - Mostly gneiss; very light gray, fine- to medium-grained, and non-consolidated. Includes: gneiss.

Pegmatite dike.

FOLDED AND MOUNTAIN BEDROCK UNITS

Pre-Cambrian rocks (undivided).

Clast of Pre-Cambrian rocks (undivided).

Boundary between map units.

AIR PHOTO LINEAMENT - Mostly joints and minor folds.

Fault - dashed where inferred, dotted where concealed.

Very old alluvial fan deposits (early Pleistocene) - Mostly very well-indurated, and sand deposits that mantle early Pleistocene uplifted depressions. Includes: very well-indurated sand deposits.

Old surficial deposits that are moderately consolidated and very poorly sorted sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: poorly sorted sand and gravel deposits.

UNCONSOLIDATED NEAR-CHANNEL DEPOSITS

Soil and gravel.

Sand and gravel.

Consolidated sand and gravel.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Consolidated sand, gravel, cobble and boulder deposits in active alluvial fans. Includes: consolidated sand, gravel, cobble and boulder deposits.

Non-existant. Includes: non-existant.
