OPERATOR WORKSHOP

Agenda

- Project Timeline
 - Release 2.0 Timelines
- Implementation Plan (Crawl/Walk/Run)
 - Operator Access
- Training schedule
- Form submission
- Tips of the Trade
- Support

Project Timelines

Implementation Plan

- Crawl/Walk/Run Approach
 - Allows the project to control the pace at which newly functionality is exercised in production.
 - Mitigate implementation risk by limiting the widespread use of new functionality until the project team can confirm readiness
- Allows the Division to provide better service and support to the operators.

Training Schedule

- Training is geared as Computer Based Training
 - Available May 2018
 - If you need additional support, please contact the Division
- We will have Help Desk support available

Form Submission and Timelines

- Updates to over 20 forms
- The forms page on the internet site has been updated with the final versions
 - NOI (OG 106), Well Summary, Application for Injection Approval and Production forms (110) etc.
- Begin submitting the NOI, Well Summary and UIC forms today – no later than April 16
- Review the NTO of March 7th

Form Submission and Timelines

Name	Form Number	Notes
Notice of Intention	OG 106	Replaces OG 105, 107, 108 and 123
Well Summary	OG 100	Updated form
Monthly Production and injection, Quarterly water	110 Forms	Minor updates to all forms
Application for Injection Approval	OG 120	New Form
