§ 3504. Administration by Lead Agency; submission of electronic documents.

(a) Record Keeping. The lead agency shall establish and maintain in-house measures and procedures to ensure organized record-keeping and monitoring of surface mining reclamation under its jurisdiction. The lead agency shall forward a copy of each permit and approved reclamation plan and financial assurance instrument to the director, Supervisor of Mine Reclamation for the Division of Mine Reclamation of the Department of Conservation.

(b) Lead agencies shall use the lead agency electronic document submission portal, located on the Division of Mine Reclamation’s website, when complying with Public Resources Code section 2774.2.5. The Division of Mine Reclamation shall notify lead agencies of any formatting deficiencies and will reject submitted documents that do not meet the requirements of Public Resources Code section 2774.2.5, or that would prevent the Division of Mine Reclamation from complying with Government Code section 11546.7, unless, on a document-by-document basis, the lead agency can
demonstrate that compliance would be an undue burden or would cause a fundamental alteration in the content of the document.

(cb) Financial Assurances. The lead agency shall ensure that the objectives of the reclamation plan will be attained. This may shall include provisions for surety bonds, irrevocable letters of credit, trust funds, or other forms of financial assurances mechanisms adopted by the board in accordance with PRC § 2773.1(e), to guarantee the reclamation in accordance with the approved reclamation plan.
