NOTICE OF PUBLIC HEARING

Consideration of Mineral Lands of Statewide or Regional Significance

San Luis Obispo – Santa Barbara Production-Consumption Region

San Luis Obispo County and Santa Barbara County, California

NOTICE IS HEREBY GIVEN that the State Mining and Geology Board (SMGB) proposes to hold a public hearing in order to consider adoption of regulations to designate areas of statewide or regional significance and specify the boundaries thereof, for mineral lands located in the San Luis Obispo-Santa Barbara Production-Consumption Region, San Luis Obispo County and Santa Barbara County, in accordance with the Surface Mining and Reclamation Act of 1975 (SMARA), pursuant to Public Resources Code Division 2, Chapter 9, Article 6, Section 2790.

BACKGROUND

The State Mining and Geology Board (SMGB), based on recommendations from the State Geologist and public input, designates, or terminates the designation of, mineral deposits of regional or statewide significance within California. Designation is the formal recognition by the SMGB of lands containing mineral resources of regional or statewide economic significance that are needed to meet the demands of the future. At its December 8, 2011, regular business meeting, the State Mining and Geology Board (SMGB) accepted California Geological Survey (CGS) Special Report 215, a classification report on Portland cement concrete-grade (PCC) aggregate in the San Luis Obispo-Santa Barbara Production-Consumption (P-C) Region. This report updated information previously published by the California Division of Mines and Geology (CDMG; now CGS) as Special Report 162– *Mineral Land Classification: Portland Cement Concrete Aggregate and Active Mines of All Other Mineral Commodities in the San Luis Obispo-Santa Barbara Production-Consumption Region*. Special Reports 215 updated the classification portion of the two-step *Classification-Designation* process mandated by the Surface Mining and Reclamation Act (SMARA).

Aggregate resources in the San Luis Obispo-Santa Barbara P-C Region were not designated subsequent to the publication of Special Report 162 in 1989; therefore,

the information on concrete-grade construction aggregate resources identified in Special Report 215 should be used as a basis for consideration of potential designation actions by the SMGB. The P-C Region will need 263 million tons of construction aggregate (all grades) in the next 50 years. 137 million tons (52%) of that will need to be AC- and PCC-grade. 75 million tons of concrete-grade aggregate resources are currently permitted (reserves). Considering recent trends, these reserves will be depleted in about 16 years from the forecast date or in the year 2026.

On March 8, 2012, the SMGB accepted the recommendations set forth by the State Geologist for designation of mineral resources lands of regional or statewide economic significance in the San Luis Obispo-Santa Barbara Production-Consumption Region, San Luis Obispo County and Ventura County, based on the information in Special Report 215.

The SMGB seeks recommendations of concerned federal, state, and local agencies, educational institutions, civic and public interest organizations, and private interest organizations, and private organizations and individuals, in the proposed actions.

CANDIDATE AREAS FOR DESIGNATION

The areas identified as candidates for designation are Sectors A through I (79 individual sectors and subsectors). The candidate areas for designation are shown on the four Plates accompanying this memorandum: Plate 1, *Candidate Areas for Designation in the San Luis Obispo-Santa Barbara Production-Consumption (P-C) Region, California – Northern Part*; Plate 2, *Candidate Areas for Designation in the San Luis Obispo-Santa Barbara Production-Consumption Region, California – Middle Part*; Plate 3, *Candidate Areas for Designation in the San Luis Obispo-Santa Barbara Production-Consumption Region, California – Southern Part*; and Plate 4, *Candidate Areas for Designation in the San Luis Obispo-Santa Barbara Production-Consumption Region, California – Cuyama Valley*. A description of each Sector, and its subsectors, is given below.

Each Sector, or group of Sectors, described below, meets or exceeds the SMGB's threshold economic value, and each Sector may be considered for designation as an area of regional or statewide significance by the SMGB pursuant to PRC, Article 6, Section 2790 *et seq.* (SMARA).

Sector A - Deposits of the Salinas River Resource Area: Deposits in the recent river channel and adjacent floodplain along about fourteen miles of the Salinas River, from the southeastern city limits of Atascadero north (downstream) to the Niblick Road Bridge in the city of Paso Robles. Sector A has been subdivided into five subsectors identified as A-1a, A-1b, A-2a, A-2b, and A-3 (Plate 1). The combined area of the

five subsectors is 1,687 acres; the estimated resource is 48 million tons of PCC-grade aggregate. Portions of this Sector are under the land use jurisdiction of the County of San Luis Obispo, City of Paso Robles, and City of Atascadero.

Subsector A-1a is 62 acres in section 4, T27S, R12E, MDBM, (projected). It is in the flood plain of the Salinas River east of US Highway 101, south of Niblick Road, and north of an unnamed pipeline.

Subsector A-1b is 597 acres in sections 4, 9, 16, 20, 21, 28, 29, and 32, T27S, R12E, MDBM, (projected). It is in the flood plain of the Salinas River east of US Highway 101, south of an unnamed pipeline, and north of Templeton Road.

Subsector A-2a is 565 acres in sections 32, 33, T27S, R12E; 3, 4, 5, and 10, T28S, R12E, MDBM, (projected). It is in the flood plain of the Salinas River east of US Highway 101, south of Templeton Road, and north of State Highway 41.

Subsector A-2b is 46 acres in sections 10, 11, 14, and 15, T28S, R12E, MDBM, (projected). It is in the flood plain of the Salinas River east of US Highway 101 and Sycamore Road, south of State Highway 41, west of Templeton Road, and north of unnamed pipelines.

Subsector A-3 is 417 acres in sections 13, 14, 23, 24, and 25, T28S, R12E, MDBM, (projected). It is in the flood plain of the Salinas River east of US Highway 101, south of unnamed pipelines, and west of Rocky Canyon Road.

Sector B - Deposits of the Navajo Creek Resource Area: Deposits of the active channel and floodplain of Navajo Creek, from one-and-a-half miles upstream of the Highway 58 crossing to about three miles upstream of the crossing (Plate 1). The area of this Sector is 122 acres; the resource and reserve figure of PCC-grade aggregate is proprietary. This Sector is under the land use jurisdiction of the County of San Luis Obispo.

Sector B is 122 acres in sections 15 and 16, T29S, R16E, MDBM. It is in the flood plain of Navajo Creek south of State Highway 58, and east of USFS Road 29S15.

Sector C - Deposits of the La Panza Granitics Resource Area: The La Panza Granitics outcrop southeast of the City of Atascadero. Sector C

is divided into four subsectors identified as C-1a, C-1b, C-2, and C-3 (Plate 1). The combined area of the subsectors is 12,289 acres; the estimated crushed stone resources are estimated to be over 6 billion tons of PCC-grade aggregate. This Sector is under the land use jurisdiction of the County of San Luis Obispo.

Subsector C-1a is 6,116 acres in sections 19, 20, 27, 28, 29, 30, 32, 33, 34, 35, T28S, R13E; 2, 3, 4, 5, 9, 10, and 11, T29S, R13E, MDBM. It is in the La Panza Granitics south of State Highway 41, east of the Salinas River, north of State Highway 58, and west of State Highway 229.

Subsector C-1b is 596 acres in sections 35, 36, T28S, R13E; 1, 2, and 11, T29S, R13E, MDBM. It is in the La Panza Granitics north of State Highway 58, and east of State Highway 229.

Subsector C-2: is 2,347 acres in sections 1, 2, 10, 11, 12, 13, 14, T29S, R13E; 7, 8, 17, 18 and 19, T29S, R14E, MDBM. It is in the La Panza Granitics south of State Highway 58, north and east of Parkhill Road.

Subsector C-3: is 3,230 acres in sections 10, 13, 14, 15, 22, 23, 24, 25, 26, 27, 35, 36, T29S, R13E; 18, and 19, T29S, R14E, MDBM. It is in the La Panza Granitics east of West Pozo Road, south of State Highway 58 and Parkhill Road, and north of Las Pilitas Road.

Sector D - Deposits of the Santa Maria River Resource Area: Alluvial deposits of the active river channel and adjacent floodplain of the Santa Maria River. This Sector includes land in both San Luis Obispo and Santa Barbara counties and is divided into 41 subsectors identified as D-1 through D-11, and D-13 through D-37 (Plate 2). The combined area of the subsectors is 16,862 acres; estimated resources are 3,836 million tons of PCC-grade aggregate. Portions of this Sector are under the land use jurisdiction of the County of San Luis Obispo, County of Santa Barbara, and City of Santa Maria.

Subsector D-1 is 925 acres in sections 22, 23, 25, 26, 27, T11N, R35W; and 30, T11N, R34W, SBBM, (projected). It is in the flood plain of the Santa Maria River south of Nipomo Mesa, north of Division Street and Oso Flaco Lake Road, east of State Highway 1 (Guadalupe Road), and west of US Highway 101.

Subsector D-2 is 1,616 acres in sections 28, 29, 30, 31, 32, 33, T11N, R34W; 25, and 36, T11N, R35W, SBBM, (projected). It is in the flood

plain of the Santa Maria River south of Nipomo Mesa, Division Street and Riverside Road; east of Bonita School Road; north of the Santa Maria River flood control channel; and west of US Highway 101.

Subsector D-3 is 472 acres in sections 26, 27, 34, and 35, T11N, R35W, SBBM, (projected). It is in the flood plain of the Santa Maria River south of Oso Flaco Lake Road, north of Division Street, and east of State Highway 1 (Guadalupe Road).

Subsector D-4 is 1,116 acres in sections 25, 26, 34, 35, and 36, T11N, R35W, SBBM, (projected). It is in the flood plain of the Santa Maria River south of Division Street, west of Bonita School Road, north of the Santa Maria River flood control channel, and east of State Highway 1 (Guadalupe Road).

Sector D-5 is 332 acres in sections 35, 36, T11N, R35W; 1, and 2, T10N, R35W, SBBM, (projected). It is in the flood control channel of the Santa Maria River south of Division Street, west of Bonita School Road, north of State Highway (West Main Street), and east of State Highway 1 (Guadalupe Road).

Subsector D-6 is 593 acres in sections 36, T11N, R35W; 1, T10N, R35W; 31, 32, 33, T11N, R34W; and 6, T10N, R34W, SBBM, (projected). It is in the flood control channel of the Santa Maria River south of Division Street, east of Bonita School Road, north of State Highway 166 (West Main Street), and west of an unnamed utility corridor and US Highway 101.

Subsector D-7 is 391 acres in sections 32, 33, and 34, T11N, R34W, SBBM, (projected). It is in the flood control channel of the Santa Maria River south of Nippon Mesa, east of an unnamed utility corridor, west of US Highway 101, and north of Atlantic Place and the City of Santa Maria.

Subsector D-8 is 130 acres in sections 34 and 35, T11N, R34W, SBBM, (projected). It is in the flood control channel of the Santa Maria River east of an unnamed utility corridor, west of US Highway 101, and north of Atlantic Place and the City of Santa Maria.

Sector D-9 is 271 acres in sections 1 and 2, T10N, R35W, SBBM, (projected). It is in the flood plain of the Santa Maria River south of the Santa Maria River flood control channel, west of Bonita School Road, and north of State Highway 166 (West Main Street).

Subsector D-10 is 717 acres in sections 1, T10N, R35W; 31, 32, T11N, R34W; 5, 6, and 7, T10N, R34W, SBBM, (projected). It is in the flood plain of the Santa Maria River south of the Santa Maria River flood control channel, east of Bonita School Road, north of State Highway 166 (West Main Street), and west of an unnamed utility corridor.

Subsector D-11 is 1,148 acres in sections 32, 33, T11N, R34W; 4, and 5, T10N, R34W, SBBM, (projected). It is in the flood plain of the Santa Maria River south of the Santa Maria River flood control channel, east of an unnamed utility corridor, north of West Donovan Road, and west of North Blosser Road and the City of Santa Maria.

Note: There is no Subsector D-12

Subsector D-13a is 411 acres in sections 35, T11N, R34W; 1, and 2, T10N, R34E, SBBM. It is in the flood control channel of the Santa Maria River east of US Highway 101, north of Seaward Drive, and west of Bull Canyon Road.

Subsector D-13b is 2,021 acres in sections 1, 12, T10N, R34E; 6, 7, 8, 15, 16, 17, 21, 22, 23, 26, 27, 35, and 36, T10N, R33W, SBBM, (projected). It is in the flood control channel of the Santa Maria River east of Bull Canyon Road, north and east of East Main Street and Foxen Canyon Road, and north of the Santa Maria Mesa Road river crossing.

Subsector D-14 is 27 acres in sections 35, T11N, R34W; and 2, T10N, R34E, SBBM. It is in the flood plain of the Santa Maria River south of the flood control channel, east of US Highway 101, and west of Mariah Drive.

Subsector D-15 is 271 acres in sections 5, 6, 7, and 8, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River north of State Highway 166, east of Bonita Lateral Road, and west of the City of Santa Maria.

Subsector D-16 is 349 acres in sections 8 and 9, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River north of State Highway 166, south of West Donovan Road, and west of North Blosser Road and the City of Santa Maria.

Subsector D-17 is 55 acres in section 9, T10N, R34W, SBBM. It is in the ancestral flood plain of the Santa Maria River north of State Highway 166, south of West Donovan Road, and west of North Blosser Road and the City of Santa Maria.

Subsector D-18 is 279 acres in sections 12, T10N, R34W; and 7, T10N, R33W, SBBM, (projected). It is on the Santa Maria River plain south of the Santa Maria River channel, east of Panther Drive, and north of East Main Street.

Subsector D-19 is 17 acre in sections 7 and 18, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River south of State Highway 166, east of Ray Road, and west of Black Road.

Subsector D-20a is 1,035 acres in sections 8, 16, and 17, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River south of State Highway 166, north of West Stowell Road, west of Hanson Way, and east of Black Road.

Subsector D-20b is 18 acres in section 16, T10N, R34W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of State Highway 166, north of West Stowell Road, west of North Blosser Road, and east of Hansen Way.

Subsector D-21 is 430 acres in sections 13, T10N, R34W; 17, and 18, T10N, R33W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River north of East Jones Street, south of East Main Street, and east of US Highway 101 and Suey Road.

Subsector D-22 is 57 acres in section 18, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River south of State Highway 166, east of Ray Road, and west of Black Road.

Subsector D-23 is 247 acres in section 13, T10N, R34W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of East Jones Street, north of East Stowell Road, east of US Highway 101, and west of Rosemary Road.

Subsector D-24a is 396 acres in section 17 and 18, T10N, R33W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of East Jones Street, north of East Stowell Road, east of Rosemary Road, and west of Philbric Road.

Subsector D-24b is 624 acres in sections 16, 17, 20, and 21, T10N, R33W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River east of Philbric Road, west of Andrew Avenue, and north of Foxen Canyon Road.

Subsector D-25 is 59 acres in sections 16, 17, and 21, T10N, R33W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River east of Philbric Road, west of Andrew Avenue, and south of Sugar Street.

Subsector D-26 is 44 acres in section 20, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River south of West Stowell Road, and east of Black Road.

Subsector D-27 is 25 acres in sections 20 and 21, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River south of West Stowell Road, and east of South East Street.

Subsector D-28a is 116 acres in sections 20 and 21, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River south of West Stowell Road, east of Black Road, and west of A Street.

Subsector D-28b is 56 acres in section 21, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River south of West Stowell Road, north of Battles Street, and west of South Blosser Road.

Subsector D-29 is 116 acres in section 22, T10N, R34W, SBBM, (projected). It is in the ancestral flood plain of the Santa Maria River south of West Stowell Road, north of Battles Street, east of South Blosser Road, and west of South Depot Street.

Subsector D-30a is 15 acres in section 23, T10N, R34W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of East Battles Road, north of East Betteravia Road, west of South College Drive, and east of Newlove Drive.

Subsector D-30b is 59 acres in section 23, T10N, R34W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of East Battles Road, north of East Betteravia Road, east of South College Drive, and west of US Highway 101.

Subsector D-31 is 195 acres in section 24, T10N, R34W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of East Stowell Road, north of East Battles Road, east of US Highway 101, and west of Rosemary Road.

Subsector D-32 is 614 acres in sections 19 and 20, T10N, R33W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of East Stowell Road, north of East Betteravia Road, east of Rosemary Road and US Highway 101, and west of Philbric Road.

Subsector D-33 is 69 acres in section 24, T10N, R34W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of East Battles Road, north of East Betteravia Road, east of US Highway 101, and west of Rosemary Road.

Subsector D-34 is 227 acres in sections 28 and 29, T10N, R33W, SBBM. It is in the ancestral flood plain of the Santa Maria River south of Foxen Canyon Road, and east of Telephone Road.

Subsector D-35 is 207 acres in section 28, T10N, R33W, SBBM. It is in the ancestral flood plain of the Santa Maria River south and west of Foxen Canyon Road.

Subsector D-36 is 982 acres in sections 16, 21, 22, 26, 27, 28, and 35, T10N, R33W, SBBM (projected). It is in the flood plain of the Santa Maria River east of Andrew Avenue, north and east of Foxen Canyon Road.

Subsector D-37 is 130 acres in sections 34, and 35, T10N, R33W, SBBM. It is in the flood plain of the Santa Maria River south of Foxen Canyon Road.

Sector E - Deposits of the Sisquoc River Resource Area: Alluvial deposits of the active river channel and adjacent floodplain of the Sisquoc River. The Sector extends along the river from about seven miles east of the community of Sisquoc, downstream to the confluence with the Cuyama River. Sector E is divided into five subsectors identified as E-1 through E-4 (with subsector E-3 split into "a" and "b;" See Plate 2). The combined area of the subsectors is 3,690 acres; estimated resources are 433 million tons of PCC-grade aggregate. This Sector is under the land use jurisdiction of the County of Santa Barbara.

Subsector E-1 is 1,644 acres in sections 1, 2, 12, T9N, R33W; 7, 8, and 17, T9N, R32W, SBBM. It is in the flood plain of the Sisquoc River

north of Foxen Canyon Road, south of Santa Maria Mesa Road, and west of Tepusquet Road.

Subsector E-2 is 82 acres in section 18, T9N, R32W, SBBM. It is in the flood plain of the Sisquoc River south of Foxen Canyon Road, and east of the community of Sisquoc.

Subsector E-3a is 157 acres in sections 16 and 17, T9N, R32W, SBBM. It is in the flood plain of the Sisquoc River north of Foxen Canyon Road, south of Santa Maria Mesa Road, and west of Tepusquet Road.

Subsector E-3b is 1,090 acres in sections 14, 15, 16, 21, 22, and 23, T9N, R32W, SBBM, (projected). It is in the flood plain of the Sisquoc River east of Tepusquet Road, north of Foxen Canyon Road and USFS Route 10N06/Rancho Sisquoc Road.

Subsector E-4 is 717 acres in sections 13, 14, 23, 24, T9N, R32W; 19, 20, 29, and 30, T9N, R31W, SBBM, (projected). It is in the flood plain of the Sisquoc River in Rancho Sisquoc, east of Tepusquet Road, north of Foxen Canyon Road, and east of USFS Route 10N06.

Sector F - Deposits of Santa Ynez River Resource Area: Alluvial deposits of the active river channel and adjacent floodplain of the Santa Ynez River. The Sector extends from just downstream of Cachuma Dam to about eight miles west (downstream) of the Highway 101 Bridge. Sector F is divided into seven subsectors identified as F-1 through F-7 (Plate 3). The combined area of the seven subsectors is 3,576 acres. The estimated resources are 280 million tons of AC-grade aggregate. Portions of this Sector are under the land use jurisdiction of the County of Santa Barbara, City of Buellton, and City of Solvang.

Subsector F-1 is 1,390 acres in sections 12, 13, T6N, R33W; 3, 7, 8, 9, 10, 11, 12, and 13, T6N, R32W, SBBM, (projected). It is in the flood plain of the Santa Ynez River west of US Highway 101 and Avenue of the Flags, north of Santa Rosa Road, and south of State Highway 246 and Mail Road.

Subsector F-2 is 11 acres in sections 12, T6N, R32W; 7, and 18, T6N, R31W, SBBM, (projected). It is in the flood plain of the Santa Ynez River west of US Highway 101, east of Avenue of the Flags, and north of Santa Rosa Road.

Subsector F-3 is 879 acres in sections 7, 16, 17, 18, 20, and 21, T6N, R31W, SBBM, (projected). It is in the flood plain of the Santa Ynez

River east of US Highway 101, south of State Highway 246/Mission Avenue, and west of Alisal Road.

Subsector F-4 is 94 acres in sections 7, 8, 17, and 18, T6N, R31W, SBBM, (projected). It is in the ancestral flood plain of the Santa Ynez River east of US Highway 101 and Ballard Canyon Road, and north of State Highway 246/Mission Avenue.

Subsector F-5 is 322 acres in sections 21, 22, 23, and 24, T6N, R31W, SBBM. It is in the flood plain of the Santa Ynez River east of Alisal Road, north of Three Springs Road, south of Mesa Verde Road, and west of Refugio Road.

Subsector F-6 is 642 acres in sections 24, T6N, R31W; 19, 20, 21, 22, 29, and 30, T6N, R30W, SBBM, (projected). It is in the flood plain of the Santa Ynez River east of Refugio Road, north of Old Santa Rosa Road, and west of State Highway 154/San Marcos Pass Road.

Subsector F-7 is 238 acres in sections 13, 14, 15, 22, 23, and 24, T6N, R30W, SBBM, (projected). It is in the flood plain of the Santa Ynez River east and north of State Highway 154/San Marcos Pass Road, and west of Cachuma Reservoir Dam.

Sector G - Deposits of the Upper Cuyama River Resource Area:
Alluvial deposits of the Cuyama River, in the Cuyama Valley from the Highway 166 bridge, south (upstream) to the Ventura County line – a distance of about 24 miles. Sector G is divided into four subsectors identified as G-1 through G-4 (Plate 4). The combined area of the subsectors is 2,723 acres; estimated resources (including reserves) are 367 million tons of PCC-grade aggregate. Aggregate resources from this Sector do not currently contribute to the San Luis Obispo-Santa Barbara P-C Region market. This deposit is under the land use jurisdiction of San Luis Obispo and Santa Barbara Counties, but currently serves western Kern County market. Portions of this Sector are under the land use jurisdiction of the County of San Luis Obispo and County of Santa Barbara.

Subsector G-1 is 527 acres in sections 19, 20, 28, 29, 30, 33, and 34, T10N, R25W, SBBM. It is in the flood Plain of the Cuyama River south of State Highway 166, west of State Highway 33, east of Kirschenmann Road, and north of Foothill Road.

Subsector G-2 is 437 acres in sections 2, 3, 11, and 12, T9N, R25W, SBBM. It is in the flood Plain of the Cuyama River south of Foothill Road, west of State Highway 33, and north of USFS Route 9N11/Big Pine Road.

Subsector G-3 is 1,042 acres in sections 12, 13, 24, T9N, R25W; 18, 19, 30, and 31, T9N, R24W, SBBM. It is in the flood Plain of the Cuyama River south of USFS Route 9N11/Big Pine Road, west of State Highway 33, and north of unnamed pipeline.

Subsector G-4 is 717 acres in sections 31, 32, T9N, R24W; 1, T8N, R25W; 6, 7, 8, 17, and 18, T8N, R24W, SBBM. It is in the flood Plain of the Cuyama River south of an unnamed pipeline, and west of State Highway 33 and the Ventura County Line.

Sector H - Deposits of the Bee Rock Resource Area: Limestone deposits on the south side of Bee Rock in the Santa Ynez Mountains approximately two miles south of Cachuma Dam (Plate 3). The deposit produces PCC-grade aggregate. The area of Sector H is about 40 acres. This Sector is under the land use jurisdiction of the County of Santa Barbara.

Sector H is 40 acres in section 31, T6N, R29W, SBBM, (projected). It is the Bee Rock Limestone Deposit in the Santa Ynez Mountains south of State Highway 154/San Marcos Pass Road and Cachuma Reservoir Dam.

Sector I - Deposits of the Huerhuero Creek Resource Area: Alluvial deposits in the active channel of the Main Branch, Middle Branch and East Branch of Huerhuero Creek, from 1.1 mile north of the intersection of State Highway 58 and O'Donovan Road, north (downstream) to approximately 0.25 mile north of the Creston Road crossing over Huerhuero Creek three miles north of State Highway 4 — a linear distance (in two segments) of about 10 miles. Sector I is divided into 11 subsectors identified as I-1 through I-11 (Plate 1). From north to south, Sectors I-1 through I-8 are in the Main and Middle Branches of Huerhuero Creek. Sectors I-9 through I-11 are in the East Branch of Huerhuero Creek. The combined area of the subsectors is 228 acres containing 5 million tons of aggregate resources. This Sector is under the land use jurisdiction of the County of San Luis Obispo.

Subsector I-1 is 6 acres in sections 14 and 23, T27S, R13E, MDBM, (projected). It is in the active channel of Huerhuero Creek north of Creston Road, and east of Geneseo Road.

Subsector I-2 is 15 acres in section 23, T27S, R13E, MDBM, (projected) It is in the active channel of Huerhuero Creek south and west of Creston Road, and north of unnamed pipeline.

Subsector I-3 is 33 acres in sections 23 and 26, T27S, R13E, MDBM, (projected). It is in the active channel of Huerhuero Creek west of Creston Road, south of unnamed pipeline, and north of another unnamed pipeline.

Subsector I-4 is 20 acres in sections 25, 26, and 36, T27S, R13E, MDBM, (projected). It is in the active channel of Huerhuero Creek north of State Highway 41, west of Creston Road, and south of an unnamed pipeline.

Subsector I-5 is 7 acres in sections 36, T27S, R13E; and 1, T28S, R13E, MDBM, (projected). It is in the active channel of Huerhuero Creek south of State Highway 41, east of State Highway 229/Webster Road, west of La Panza Road, and north of an unnamed pipeline.

Subsector I-6 is 8 acres in section 1, T28S, R13E, MDBM, (projected). It is in the active channel of Huerhuero Creek south of unnamed pipeline, east of State Highway 229/Webster Road and the community of Creston, and north of O'Donovan Road.

Subsector I-7 is 31 acres in sections 1 and 12, T28S, R13E, MDBM, (projected). It is in the active channel of Huerhuero Creek south of the community of Creston, east of State Highway 229/Webster Road, and north of Reeves Pheasant Way.

Subsector I-8 is 35 acres in sections 1 and 12, T28S, R13E, MDBM, (projected). It is in the active channel of Huerhuero Creek south of Reeves Pheasant Way, and east of State Highway 229/Webster Road.

Subsector I-9 is 3 acres in section 7, T28S, R14E, MDBM, (projected). It is in the active channel of Huerhuero Creek east of O'Donovan Road, and north of Lady Amherst Way.

Subsector I-10 is 19 acres in sections 18 and 19, T28S, R14E, MDBM, (projected). It is in the active channel of Huerhuero Creek west of O'Donovan Road, and south of Lady Amherst Way.

Subsector I-11 is 51 acres in sections 19, 20, and 29, T28S, R14E, MDBM, (projected). It is in the active channel of Huerhuero Creek east of O'Donovan Road.

PUBLIC HEARING AND WRITTEN COMMENT

The SMGB has scheduled a public hearing on this proposed action, to receive public comments, for July 11, 2012. The public hearing will take place in the Council Chambers, Santa Barbara City Hall, 735 Anacapa Street, Santa Barbara, CA 93102, at 2:00 P.M.

The hearing facility will be barrier free in accordance with the Americans with Disabilities Act. At the hearing, any person may present statements or arguments orally or in writing relevant to the proposed action. The SMGB requests, but does not require, that persons who make oral comments at the hearing also submit a written copy of their testimony. Comments can also be provided in writing up to ten days prior to the scheduled meeting.

CONTACT PERSON
