III. Consent Items [Action]

[All the items appearing under this section will be acted upon by the committee by one motion and without discussion; however, any committee member wishing to discuss a particular item may request the Chairman to remove the item from the Consent Calendar and consider it separately under Continued Business or New Business]

1. Approval of Minutes, September 13, 2012, Committee Meeting.

Committee Member Garvic moved to approve the minutes. Committee Member Lane seconded and the motion carried with a unanimous voice vote.

IV. Continued Business [Action]

[These business items have been continued from a previous meeting/hearing.]

2. Consideration of Proposed Regulatory Language Regarding the Administrative Appeal Process for Removal of Surface Mining Operations from the AB 3098 List. Executive Officer Testa noted that since July 2010, this Committee has been discussing the need for a due process for placement, removal, and reinstatement of operators on the AB 3098 List. Preliminary regulatory language has been prepared. This language was first

made available to this Committee for review and discussion, and to hear comments from stakeholders at its February 10, 2011, meeting. Further discussion of the proposed regulatory language was deferred pending the Department of Conversation's efforts to pursue a legislative remedy. The Committee is revisiting its discussions and considerations. Specifically, discussion will be focused in the case where there is an intent by the DOC to remove a surface mining operation from the AB 3098 List, and provide opportunity for administrative appeal from the operator to the SMGB prior to removal.

- Minor changes and edits were discussed and made to the draft regulatory language.
- The Committee's legal counsel, Rick Thalhammer, reiterated that the SMGB's has authority to consider regulatory language in regards to this matter if so desired.

Committee Member Gavric moved to recommend to the whole SMGB acceptance of the proposed regulatory language, and to forward such language to the DOC for consideration. Committee Member Lane seconded and the motion carried with a unanimous voice vote.

3. Consideration of Changes to Inspection Form MRRC-1 (4/97) Pursuant to Title 14, Division 2, Chapter 8, Subchapter 1, California Code of Regulations, Article 1, Section 3504.5.

Executive Officer Testa stated that inspection of a surface mining operation is required not less than once each calendar year to determine if the operation is in compliance with the requirements of PRC Chapter 9, commencing with Section 2710. Inspection form MRRC-1, as referred to in CCR Section 3504.5(g), was last revised by the SMGB in April 1997. Since such time, the quality and adequacy of inspections have not appreciatively improved. Efforts to revise Inspection Form MRRC-1 have been initiated by OMR with collaboration from SMGB staff. A revised inspection form is before the Committee for review and discussion.

- Jim Pompy, Assistant Director with OMR, provided an introduction and rationale for revising the current form.
- Tom Ferrero, Manager of OMR's Compliance and Reporting Unit, provided a summary of the changes under consideration.
- Adam Harper, representing the California Construction and Industrial Materials Association (CalCIMA), requested a minimum of 30 days for review and the opportunity to comment n the proposed revisions.
- Committee Chairman Baca suggested that the request from CalCIMA and for the benefit of other stakeholders to continue this matter to the next scheduled meeting of the Committee, with a report from OMR at such time.

Committee Member Lane moved to continue this matter to the next scheduled meeting of the Committee. Committee Member Gavric seconded and the motion carried with a unanimous voice vote.
