**IV. Continued Business [Action]**

[These business items have been continued from a previous meeting/hearing.]

2. Consideration of Changes to Inspection Form MRRC-1 (4/97) Pursuant to Title 14, Division 2, Chapter 8, Subchapter 1, California Code of Regulations, Article 1, Section 3504.5.

Executive Officer Testa stated that inspection of a surface mining operation is required not less than once each calendar year to determine if the surface mining operation is in compliance with the requirements of PRC Chapter 9, commencing with Section 2710. Inspection Form MRRC-1, as referred to in CCR Section 3504.5(g), was last revised and subsequently by the SMGB in April 1997. Since such time, the quality and adequacy of inspections have not appreciatively improved. Efforts to revise Inspection Form MRRC-1 have been initiated by OMR with collaboration from SMGB staff. A revised inspection form is before the Committee for review and discussion. Written comments received to date were provided as part of the Committee's packet.

- Ken Trott, Acting Assistant Director of OMR, summarized the status of the proposed changes to the inspection form MRRC-1.
- Adam Harper, representing the California Construction and Industrial Materials Association (CalCIMA) summarized additional comments and issues related to the proposed changes to the

form, as presented in CalCIMA correspondence dated June 12, 2013. Two primary issues noted pertained to information being requested on the form related to vested rights, and consideration of field testing the form using SMGB staff. Overall, CalCIMA expressed appreciation to OMR and the SMGB for addressing many of the issues previously offered.

- Deputy Attorney General Rick Thalhammer, legal counsel to the SMGB, offered a scenario where a vested right may exist, but was never granted by the lead agency.
- Greg Tenorio, legal counsel for OMR, indicated that CalCIMA concern regarding vested rights language will be reviewed and incorporated, as appropriate.
- Executive Officer Testa indicated that the proposed revised inspection form will be brought back to the Committee, and subsequently to the whole SMGB for approval consideration at the July 11, 2013 meetings. Once eventually approved by the SMGB, the SMGB's inspection guidelines will be revisited and reviewed for consistency.

Committee Member Garvic moved to continue this matter. Committee Chair Kenline seconded and the motion carried with a unanimous voice vote.

3. State Mining and Geology Board's Information Report SMGB IR 2013-10 titled "Roles of the Engineering Geologist under California's Surface Mining and Reclamation Act (SMARA)".

Executive Officer Testa stated that the SMGB conducts its business in public, and often considers policy or informational topics of statewide interest. On occasion, the SMGB also requests information and/or analysis from its Executive Officer prior to considering policy decisions. Recently completed is Information Report SMGB IR 2013-10 titled "*Roles of the Engineering Geologist under California's Surface Mining and Reclamation Act (SMARA)*." This report stems from previous discussions pertaining to adequacy of mine inspections and reclamation, and professional standards of practice. The Committee is considering accepting a new report pertaining to a review of issues pertaining to the roles of engineering geologists under the Surface Mining and Reclamation Act (SMARA) for publication on the SMGB's website.

Committee Member Gavric moved to continue this matter. Committee Chair Kenline seconded and the motion carried with a unanimous voice vote.
