Modifications from Bortugno, E.J., 1984. Stockton fault from Morrison, R.B., 1970, Potential of Sacramento Valley gas province, California: American Association of Petroleum Geologists Memoir 15, fig. 1, p. 330.
64. Wagner, J.R., 1978, Late Cenozoic history of the Coast Ranges east of San Francisco Bay: University of California, Berkeley, Ph.D. dissertation, scale 1:24,000.
Dibblee, T.W., Jr., 1980, Preliminary geologic map of the Las Trampas Ridge quadrangle, Alameda and Contra Costa counties, California: U.S. Geological Survey Open-File Report 80-1100, scale 1:24,000.
65. Wagner, D.L., 1977, Geology for planning in western Marin County, California: California Division of Mines and Geology Open-File Report 77-15 SF, plate 1, scale 1:12,000. Stratigraphic modifications from Clark, J.C., Brabb, E.E., Greene, H.G., and Ross, D.C., 1984, Geology of the Point Reyes Peninsula and implications for San Gregorio fault history, *in* Crouch, J.K., and Bachman, S.B., editors, Tectonics and sedimentation along the California margin: Pacific Section, Society of Economic Paleontologists and Mineralogists, v. 38, p. 67-86, fig. 1.
66. Woodward-Clyde Consultants, 1978, Stanislaus nuclear project site suitability and site safety report prepared for Pacific Gas and Electric Company, v. 6, Appendix C.4, fig. C-4.4. Minor modifications by Wagner, D.L., 1984.
* Some fault traces were modified or taken from Pampeyan, E.H., 1979, Preliminary map showing recency of faulting in coastal north-central California: U.S. Geological Survey Miscellaneous Field Studies Map MF-1070, scale 1:250,000 and/or Wagner, G.E., and Lajoie, K.R., 1980, Map of Quaternary faulting along the San Gregorio fault zone, San Mateo and Santa Cruz counties, California: U.S. Geological Survey Open-File Report 80-907, map scale 1:24,000.

INDEX TO GEOLOGIC MAPS USED IN COMPILATION OF THE SAN FRANCISCO-SAN JOSE QUADRANGLE, CALIFORNIA, 1:250,000
